## THINK POTASH IN COMMERCIAL FORM IS HERE

Dr. E. V. Wilcox, head of the Fed-  
eral Experiment Station here, believes  
that a practically inexhaustible and  
immensely valuable supply of potash  
has been discovered in Hawaii.

In the black volcanic sand which  
exists here in millions of tons, Dr.  
Wilcox believes that there is the  
source of nearly limitless wealth, and  
that the potash thus secured will be  
the very kind needed here in agricul-  
ture. Hawaii's black sand is said to  
average 5 per cent. potash and Dr.  
Wilcox estimates it to be worth five  
or six dollars a ton.

The experiments are said to have  
been well worked out at the Federal  
station and the result will be watched  
with much interest.

## PEOPLE OF HANA WANT WHARF REPAIRED

Within a few days a petition on be-  
half of the taxpayers of Hana, Maui,  
will be presented to the harbor com-  
mission for the renovation of the gov-  
ernment landing at Hana. The land-  
ing, according to some of the people  
who arrived from Maui last Wednes-  
day, is in bad condition, and unless  
the government takes immediate steps  
to put it in good condition, the people  
there will be greatly inconvenienced.  
Ex-Senator W. J. Coelho, who ar-  
rived from Wailuku in the Claudine  
last Wednesday, and who has been re-  
quested by some of the taxpayers of  
Hana to represent them, is preparing  
the petition. He said yesterday that  
the approach from the steamer to the  
landing has been so filled up with  
sand that it is necessary to remove  
it in order to allow the boats to touch  
the landing.

## DIABETES

The probabilities under Pulton's  
Diabetic Compound seem to us to be  
about as follows:

In cases of sixty years and over  
reports have been so encouraging that  
it is our belief that recovery or control  
that prolongs life in reasonable com-  
fort is possible in nearly nine-tenths  
of the cases.

While at fifty a majority of all cases  
appear to respond to the treatment,  
below fifty and approaching forty the  
disease gets more stubborn, and be-  
tween thirty and forty the percentage  
is not high and we cannot make  
strong claims.

Under thirty the percentage is very  
low and in children recoveries have  
been rare and most of those were ob-  
tained through the aid of skilled phy-  
sicians keeping the liver active, pro-  
moting nutrition and giving alkalines  
when necessary to control acetones.

Pulton's Diabetic Compound can be  
had at Honolulu Drug Company, Fort  
street.

Ask for pamphlet.  
It does not conflict with physicians'  
prescriptions. But where patients re-  
quire codon we desire to submit  
something milder that contains no  
opium.

We desire every patient not im-  
proving the third week to write us. Al-  
ways state age. Literature mailed  
free. John J. Pulton Company, 645  
Battery street, San Francisco, Cal. We  
invite correspondence with physicians  
who have obstinate cases.

of this musical organization has al-  
ready been proved in Honolulu, by its  
appearance at the Christian, Central  
Union and Methodist churches at the  
midweek services. In fact, it is said  
by local musical authorities to be one  
of the best in the country and second
